

JMS Storyboards

Term:
Definition:

Setting:

The storyboard consists of five numbered panels arranged in a grid-like fashion. Panel 1 is a vertical rectangle on the top left, containing two speech bubbles. Panel 2 is a large vertical rectangle on the top right, containing three speech bubbles. Panel 3 is a vertical rectangle on the bottom left, containing one speech bubble. Panel 4 is a vertical rectangle on the bottom middle, containing one speech bubble. Panel 5 is a vertical rectangle on the bottom right, which is empty. The panels are separated by thick black lines. A large black shape is visible on the right edge of the storyboard area.

Storyboard must include: dialogue, detailed pictures with action, setting, etc.
